Building Permit Violation Referral (continued)

Filing a Complaint for Failure to Obtain a Building Permit

Building permits are required by law as a public safety measure. Permits ensure that construction is performed in compliance with state and local codes, including safety standards. On June 11, 2009, the Contractors State License Board (CSLB) voted unanimously to place a high priority on enforcing building permit requirements, and an Industry Bulletin was subsequently issued on November 30, 2009, to alert licensees that CSLB would be accelerating building permit enforcement efforts, beginning January 2010.

Failure to obtain a building permit is a violation of Contractors License Law. Further, construction performed without a permit can expose a homeowner to additional liability and costs. When a contractor performs a work improvement that requires a permit without that permit, it is a violation of Business and Professions (B&P) Code Sections 7110 and 7090. Contractors who violate the law are subject to disciplinary action by CSLB, including assessment of civil penalties of up to \$5,000

per violation, an order of correction to pay the cost of permit fees as well as any assessed penalties imposed by the local building department, and suspension or revocation of the license.

Upon receipt of a building permit complaint, CSLB will contact the contractor regarding the permit allegation and take the appropriate disciplinary action.
