4. Specialty Tile Installation (16%)

- Specialty tile installation
- Slab and stone installation
- Accessories

5. Safety (12%)

- Personnel safety
- Equipment safety
- Environmental safety

Percentages are approximate

Test Site Policy

This is a closed-book examination. No reference materials may be used during the examination. All materials brought to the examination site must be left in an unmonitored area at your own risk.

Test Strategy

This is a multiple-choice examination with four choices per question. Examination questions are written to provide only one BEST answer. Some questions require mathematical computation. A calculator will be provided.

There is no penalty for guessing. If you are unsure about a particular question, it is better to try to answer the question than to leave the question blank.

Plenty of time is provided to answer all examination questions, so be sure to read each question and its four choices completely and carefully before selecting the BEST possible answer to the question.

Sample Questions

Below are three typical examination questions.
The correct answer is underlined.

1. How many square feet of tile are needed for an area that measures 2-1/2" by 4" on a plan that is drawn to a 1/8" scale?
 - a. 10 sq. ft.
 - b. 160 sq. ft.
 - c. 576 sq. ft.
 - d. 640 sq. ft.
2. Which of the following types of tile requires sealing before grouting?
 - a. Vitreous body
 - b. Semi-matte
 - c. Crackle-glazed
 - d. Ceramic
3. Assuming that a bag of grout covers 75 sq. ft., how many bags are needed for a 25' x 23' room?
 - a. 6 bags
 - b. 7 bags
 - c. 8 bags
 - d. 9 bags

All questions are written and reviewed by licensed contractors who are actively working in the trade
